Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

Applicants, please note that the numbering of the original claims is not in proper ascending order. Claim 23 is missing. Therefore, in accordance with 37 CFR 1.126, original claim 24 has been renumbered claim 23. Applicant's future amendments to the claims should reflect this change in numbering. This Lack of Unity reflects the change in claim numbering.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to an integration vector capable of site specific *Listeria* genome integration.

Group II, claim(s) 12, drawn to a method of transforming cells using the *Listeria* integration vector.

Group III, claim(s) 13, 16-19 drawn to a *Listeria* transformed with the integration vector and cultures and compositions thereof.

Group IV, claim(s) 14-15, drawn to a method of eliciting or boosting a cellular immune response using the *Listeria* transformed with the integration vector.

Group V, claim(s) 20-22, kits for preparing vectors of claim 7.

Art Unit: 1645

Group VI, claim 23 (renumbered original claim 24), system for preparing a vaccine of claim 16.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature of Group I is a vector capable of site specific *Listeria* genome integration. This technical feature is anticipated by the art according to Schaeferkordt et al (BioTechniques, 19(5):720-725, 1995 of record) or Shen et al (PNAS, 1995 of record) that teaches an insertion site specific vector for cloning in *Listeria* species. Inasmuch as, the technical feature of Group I does not define a contribution over the art, the technical feature of Group I is not "special" withing the meaing of PCT Rule 13.2 and therefore Groups I-VI lack unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions

Art Unit: 1645

unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia A. Duffy whose telephone number is 571-272-0855. The examiner can normally be reached on M-Th 7:30 pm - 6:00 pm.
